Question 1 [699185]: A. which held B. holding C. held D. is held

LIVEWORKSHEETS

Question 2 [699186]: A. specialize B. special C. specialty D. specially

Question 3 [699187]: A. lighting B. light C. to lighting D. to light

Question 4 [699188]: A. with B. among C. to D. for

Question 5 [699189]: A. successful harvest season B. season harvest successful

C. harvest successful season D. successful season harvest

Question 6 [699190]: A. takes B. makes C. plays D. sets

Read the following leaflet and mark the letter A, B, C or D on your answer sheet to indicate the option that best fits each of the numbered blanks from 7 to 12.

Save Electricity - Benefits for You and the Community

Every Small Action Counts - Start Saving Today!

The Problem of Wasting Electricity

Currently, many households and businesses are wasting too (7) _____ electricity. Electrical appliances are often left on when not in use, which leads to unnecessary energy consumption. Not only does this increase electricity bills, but it also harms the environment. If these habits continue, the cost of electricity will keep rising. You will save significantly on your electricity bill (8) _____ you follow energy-saving practices.

LIVEWORKSHEETS

Tips for Saving Electricity

- **Turn off electrical devices when not in use:** Make sure to (9) _____ lights, fans, air conditioners, and computers when you don't need them. This simple habit helps reduce energy (10) _____ and saves on your monthly electricity bill.
- **Use energy-efficient appliances:** Replace incandescent bulbs with LED lights and choose appliances with energy-saving certifications. These devices use less electricity while still providing the same (11) _____ of performance.
- **Optimize electricity usage:** Set your air conditioner to a reasonable temperature and use appliances efficiently to avoid wastage. Regular (12) _____ of electrical equipment ensures smooth operation and lower power consumption.

Question 7 [699191]: A. many B. number C. much D. few

Question 8 [699192]: A. with the aim of B. on condition that C. for fear that D. in case of

Question 9 [699193]: A. turn on B. put away C. give out D. switch off

Question 10 [699194]: A. consumption B. production C. efficiency D. conservation

Question 11 [699195]: A. number B. amount C. level D. degree

Question 12 [699196]: A. removal B. maintenance C. purchase D. reliance

LIVEWORKSHEETS

Mark the letter A, B, C or D on your answer sheet to indicate the best arrangement of utterances or sentences to make a meaningful exchange or text in each of the following questions from 13 to 17.

Question 13 [699197]:

a. Diep: Yes, I have. It seems harder than previous years because it emphasizes vocabulary and reading comprehension skills.

b. Lan: I agree. We need to focus on studying vocabulary and doing more reading comprehension exercises to improve.

c. Lan: Have you had a chance to review the new university entrance exam?

A. b - a – c B. c - a – b C. c - b – a D. a - c - b

Question 14 [699198]:

a. David: What's the hardest thing about saving money?

b. David: How do you usually manage your budget?

c. Jane: Resisting the temptation to buy unnecessary things, especially online.

d. Jane: I track my expenses using an app, so I know where my money goes.

e. David: I think having clear financial goals makes it easier to stay disciplined.

A. a - e - c - d – b B. a - c - e - d – b C. b - c - a - d – e D. b - d - a - c - e

LIVEWORKSHEETS

Question 15 [699199]:

Dear Mr. John Smith,

a. At Blue Horizon Ltd., we highly value partnerships that drive innovation and success.

b. As the Marketing Manager, I believe our mutual expertise could lead to impactful results.

c. Please let me know a suitable time for a quick meeting or call. Looking forward to your response.

d. I'm writing to explore potential collaboration opportunities between our teams.

e. I would appreciate the chance to discuss this further and explore specific ways we can collaborate.

Best regards,

Emily Davis

A. d - a - b - e – c B. c - e - b - a – d C. e - b - a - d – c D. a - c - b - d - e

Question 16 [699200]:

a. It's in these moments of uncertainty that you learn to adapt, overcome challenges, and even find beauty in the unexpected.

b. However, getting lost often forces you to rely on your instincts, discover hidden paths, and encounter unexpected opportunities.

c. Getting lost can be both a frightening and enlightening experience.

d. In conclusion, while getting lost can be unsettling, it can also lead to personal growth and memorable

LIVEWORKSHEETS

adventures.

e. At first, unfamiliar surroundings may cause panic and frustration, especially if you're far from home or in an unknown place.

A. c - a - e - b – d B. c - e - b - a – d C. b - a - c - e – d D. e - b - c - a - d

Question 17 [699201]:

a. From a primarily agricultural country, it has transitioned into a dynamic economy driven by manufacturing, exports, and technology.

b. However, challenges such as income inequality and environmental sustainability still require attention.

c. Foreign investment and trade agreements have played a significant role in boosting industrial growth and creating jobs.

d. Additionally, urbanization and improvements in infrastructure have enhanced living standards for many people.

e. Vietnam's economy has undergone remarkable changes over the past few decades.

A. e - b - a - d – c B. e - c - a - b – d C. e - a - c - d – b D. e - d - b - c - a

Read the following passage and mark the letter A, B, C or D on your answer sheet to indicate the option that best fits each of the numbered blanks from 18 to 22.

LIVEWORKSHEETS

In 2003, engineers Martin Eberhard and Marc Tarpenning (18) _____. At that time, electric cars were seen as impractical and expensive, but they were determined to change this perception. Their vision was to develop vehicles (19) _____. They knew immediately that this was the start of something transformative.

Being innovative entrepreneurs, (20) _____. With Musk's leadership and investment, Tesla began developing its first car, the Tesla Roadster, targeting early adopters and enthusiasts of clean energy. By 2008, the Roadster was launched, capable of traveling over 200 miles on a single charge—an achievement that impressed skeptics and gained media attention, though the company still faced financial struggles.

The team realized that long-term success required scaling up production and targeting the mass market. In 2012, they launched the Model S, an electric luxury sedan. (21) _____. At the same time, they invested in a global network of charging stations. Investors soon noticed Tesla's potential, and significant funding helped the company expand its operations.

Since then, Tesla has grown into a leader in the electric vehicle market. The company now produces several models such as the Model 3, Model X, and Model Y. (22) _____. In conclusion, Tesla has reshaped the auto industry and inspired the transition to sustainable energy.

Question 18 [699202]:

A. who founded Tesla Motors with the goal of revolutionizing the auto industry

B. founded Tesla Motors with the goal of revolutionizing the auto industry

LIVEWORKSHEETS

C. from whom Tesla Motors with the goal of revolutionizing the auto industry was created

D. founding Tesla Motors with the goal of revolutionizing the auto industry

Question 19 [699203]:

A. of which environmentally friendly designs and high-performance styles

B. were not only environmentally friendly but also high-performance and stylish

C. that were not only environmentally friendly but also high-performance and stylish

D. can be both environmentally friendly and high-performance in style

Question 20 [699204]:

A. the company's vision was the result of collaboration between its founders and Elon Musk

B. the funding and guidance of the company were envisioned by the founders and Elon Musk

C. the company had the founders enlist Elon Musk to help fund and guide its vision

D. the founders enlisted Elon Musk to help fund and guide the company's vision

Question 21 [699205]:

A. The car offered a unique combination of impressive performance, long-range, and sleek design features

B. A unique combination of impressive performance, long-range, and sleek design features gave birth to the car

C. Offering a unique combination of impressive performance, long-range, and sleek design features, the founders created the car

LIVEWORKSHEETS

D. Impressive performance, long-range, and sleek design features combined to help create the appearance of the new car

Question 22 [699206]:

A. Providing products like solar panels and battery storage systems, energy solutions have also been diversified

B. It has also diversified into energy solutions, offering products like solar panels and battery storage systems

C. It has offered products like solar panels and battery storage systems so that it will diversify into energy solutions

D. Without offering products like solar panels and battery storage systems, it has also diversified into energy solutions

Read the following passage and mark the letter A, B, C or D on your answer sheet to indicate the best answer to each of the following questions from 23 to 30.

The workplace has been experiencing significant transformations due to technological advancements. Gradually, robots are taking over tasks previously performed by semi-skilled workers. For example, automated kiosks are now widely used in airports to streamline check-in processes, and grocery stores in many countries have introduced self-checkout systems to reduce reliance on human cashiers. Similarly, some cafes and fast-food chains have implemented robotic systems for preparing and delivering orders. With such developments, securing a **stable** job or a long-term career has become more challenging than ever.

LIVEWORKSHEETS

For school graduates, selecting a career path is one of the most crucial decisions they face. Making this choice requires careful reflection and understanding of personal strengths and aspirations. Guidance from counselors, parents, and personality assessments can provide invaluable insights, helping young people identify their potential and make informed decisions. In today's fast-paced and evolving world, young individuals must be adaptable and prepared to embrace changes and seize unique opportunities that may come **their** way.

Although career choices can initially seem overwhelming, they merely mark the start of a lifelong journey of growth. Career development is an **ongoing** process that requires setting clear goals, building self-confidence, improving communication abilities, and expanding social networks. Higher education, for instance, not only equips individuals with knowledge but also symbolizes continuous self-improvement, which is essential for thriving in an ever-changing world.

Despite the rise of AI and automation in many industries, certain aspects of work cannot be replicated by machines. While robots excel in performing technical tasks, they lack the emotional intelligence and empathy needed for roles such as caregiving or mentorship. In conclusion, technology is reshaping the job market, but human qualities like adaptability, critical thinking, and emotional intelligence remain indispensable for success in the modern workforce.

GIA SƯ TẠI HUẾ 079 3833 272

Question 23 [699207]: Which of the following is **NOT** mentioned as one of the examples of where robots or automation are being utilized?

LIVEWORKSHEETS

A. airports B. stores C. fast-food chains D. hospitals

Question 24 [699208]: The word **stable** in paragraph 1 is opposite in meaning to _____.

A. innocent B. insecure C. certain D. permanent

Question 25 [699209]: The word **their** in paragraph 2 refers to _____.

A. changes B. opportunities C. young individuals D. career choices

Question 26 [699210]: The word **ongoing** in paragraph 3 could be best replaced by _____.

A. continuous B. regular C. seasonal D. occasional

Question 27 [699211]: Which of the following best paraphrases the underlined sentence in paragraph 3?

A. Thanks to advances in AI, all tasks in industries are now effectively performed by machines.

B. Even with AI and automation becoming widespread, machines can now perform almost all tasks.

C. AI and automation have taken over industries, leaving no tasks that humans can do better.

D. Although AI and automation have grown, some tasks remain beyond the ability of machines.

Question 28 [699212]: Which of the following is TRUE according to the passage?

A. Higher education promotes both knowledge and continuous self-improvement.

B. School graduates don't need guidance in making their career choices.

C. Choosing a career path is no longer a challenge for school graduates.

D. The rise of AI has eliminated the need for emotional intelligence in the workforce.

Question 29 [699213]: In which paragraph does the writer mention a comparable relationship?

LIVEWORKSHEETS

A. Paragraph 1 B. Paragraph 2 C. Paragraph 3 D. Paragraph 4

Question 30 [699214]: In which paragraph does the writer mention tasks that require uniquely human abilities?

A. Paragraph 1 B. Paragraph 2 C. Paragraph 3 D. Paragraph 4

Read the following passage and mark the letter A, B, C or D on your answer sheet to indicate the best answer to each of the following questions from 31 to 40.

The global decline of animal species has raised concerns about biodiversity loss and its impact on ecosystems. Many species, from **majestic** tigers to delicate amphibians, are now classified as endangered. This is largely due to habitat destruction, climate change, and poaching. Zoos have increasingly positioned themselves as important players in the fight to protect these animals. While traditionally viewed as places of entertainment, modern zoos now focus heavily on conservation and education, aiming to raise public awareness about the plight of endangered species.

[I] One of the most significant contributions of zoos is their breeding programs, which are essential for preserving species on the brink of extinction. [II] For instance, the giant panda, once critically endangered, has seen a population revival thanks to coordinated breeding efforts in zoos across the world. [III] By creating safe and controlled environments, zoos help maintain animal populations while scientists work to address broader conservation challenges in natural habitats. [IV]

LIVEWORKSHEETS

In addition to breeding programs, zoos also act as research hubs where scientists study animal behavior, health, and reproduction. These insights often prove invaluable for designing effective conservation strategies. For example, zoos have contributed to understanding the effects of climate change on animal migration and mating patterns. Furthermore, **they** collaborate with wildlife organizations and governments to reintroduce species into the wild. This has been demonstrated through successful efforts to return the Arabian oryx to its native desert habitats.

However, not everyone agrees with the role of zoos in conservation. Critics argue that keeping animals in **captivity**, even for noble reasons, can lead to stress and behavioral issues. They emphasize the need for in-situ conservation efforts, where species are protected within their natural ecosystems. **Despite these concerns, many conservationists believe zoos offer a vital lifeline for species that might otherwise disappear forever.**

Question 31 [699215]: Where in paragraph 2 does the following sentence best fit?

Such programs ensure genetic diversity and often serve as a last resort for species that no longer have viable populations in the wild

A. [I] B. [II] C. [III] D. [IV]

Question 32 [699216]: The word **majestic** in paragraph 1 could be best replaced by _____.

A. splendid B. plentiful C. unattractive D. aggressive

Question 33 [699217]: The word **they** in paragraph 3 refers to _____?

A. effects B. zoos C. patterns D. strategies

LIVEWORKSHEETS

Question 34 [699218]: According to paragraph 1, which of the following is **NOT** listed as a main threat to endangered species?

A. climate change B. poaching

C. habitat destruction D. natural disasters

Question 35 [699219]: Which of the following best summarises paragraph 3?

A. Zoos have helped uncover the impacts of climate change on animal migration and mating behaviors.

B. Zoos work with wildlife organizations and governments to return species to their natural habitats.

C. Zoos provide research insights and collaborate to reintroduce species into their natural habitats.

D. Zoos serve as research centers where scientists explore animal behavior, health, and reproduction.

Question 36 [699220]: The word **captivity** in paragraph 4 is OPPOSITE in meaning to _____.

A. restriction B. enclosure C. protection D. freedom

Question 37 [699221]: Which of the following is **TRUE** according to the passage?

A. Modern zoos now focus more on entertainment than conservation efforts.

B. The Arabian oryx was reintroduced to its habitat through joint efforts.

C. Habitat destruction is no longer a key threat to endangered species.

D. Critics agree completely with zoos' role in tackling biodiversity loss.

Question 38 (699222): Which of the following best paraphrases the **underlined sentence** in paragraph 4?

LIVEWORKSHEETS

A. Even with the criticism, many conservationists view zoos as crucial for saving endangered species.

B. Many conservationists argue that zoos are unnecessary since species can survive without human intervention.

C. Zoos are considered by some conservationists as the main cause of stress and behavioral issues in animals.

D. Critics agree that zoos are ineffective in preventing species from going extinct despite receiving approval.

Question 39 (699223): Which of the following can be inferred from the passage?

A. Zoos rely only on breeding programs as their primary method to address biodiversity loss.

B. Public education is a significant focus of zoos to increase awareness about endangered species.

C. Conservation efforts by modern zoos are completely supported by all environmental organizations.

D. Technological advancements have significantly reduced the importance of zoos in conservation work.

Question 40 (699224): Which of the following best summarises the passage?

A. While zoos contribute to education and conservation, critics argue that their efforts do not address the root causes of biodiversity loss.

B. Zoos primarily focus on entertainment for visitors but also engage in research and breeding programs that aim to support the conservation of endangered animals.

C. Zoos are essential for species conservation, but their efforts are often undermined by a lack of public awareness and funding from the government.
