Frank's Story

It was a cold day in the winter of 1905 in San Francisco, California. Eleven year- old Frank Epperson was thirsty, so he made his favorite juice. He mixed soda and powder (مسحوق) with a stick. This was a popular (شعبي) juice in those days.

But Frank didn't finish his juice. It was all night. It was very cold that night, and the juice froze(تجمد). It became ice.

In the morning, Frank found his glass outside. The juice was frozen on the stick. Frank tasted the " ice on stick". It was delicious. He took it to school and showed it to his friends.

For many years Frank didn't do anything with his discovery (اكتشاف) . In 1923, 18 years later, Frank remembered how his juice froze. He decided to make and sell frozen ice. He called them " Epsicles" because of his name.

Later his children changed the name to " Popsicles". At first Frank made popsicles in seven different flavors (أطعمة). He sold them all over the United States, and Frank became a rich man.
