MODERN DAY DINOSAURS

1.Read.

A giant Galapagos tortoise is about 1 metre tall and about 1.2 metres long. It's very slow. It walks about 200 metres per hour.
It's got a big shell, a small head and four short legs.

A Komodo dragon is 0.75 metres tall and about 3 metres long. It's fast. It runs about 18km per hour.
It's got 60 sharp teeth, a yellow tongue and big claws.

2. Choose the correct answer.

1. A giant Galápagos tortoise is about 2 / 1 metres tall.
2. It's about 1.2 / 2.1 metres long.
3. IT's got a small / big shell.

4. A Komodo dragon is 0.75 / 1.75 metres tall.
5. It's about 3 / 5 metres long.
6. It's got a black tongue and small claws / yellow tongue and big claws.

3. Read and write about an amazing reptile.

- frilled lizard (v)
- 0.90m long (v)
- a big mouth (v)
- big claws (x)

- giant lizard from the Canary Islands (v)
- 0.60m long (v)
- a big body (v)
- big legs (x)

This is a frilled lizard.
It's about 0.90 metres long.
It's got a big mouth!
It hasn't got big claws.
