MONEY MATTERS

Do you spend all your money? Or do you save everything? It is often hard to manage money. A lot of people feel like they want to spend it. After all, they work hard for it. But a few others like to save it to buy something big or expensive, or sometimes just to have some money in the bank. There is no right or wrong answer, but it is good to know all the options and find out what is best for you.

There are a lot of banks where you can save money. They are good because your money is safe, and you can check what you have using online banking apps or websites. You can also save money at home, but it can be easier to spend it if you have easy access to it.

It isn't a good idea to spend all your money because you may need it at some point, but it is up to you how you use your money. Do ask for advice from friends and family if you need some help.
