Art Made of . . . Cheese?

Artists are always looking for new and interesting ways to express themselves in their art. Sometimes they choose to use interesting materials. Sculptor Sarah Kaufmann is a good example. She carves her sculptures out of cheese!

Kaufmann is inspired by cheese. She says that she chooses this material for her sculptures because it's part of her background. She is from the state of Wisconsin, where many kinds of cheeses are made. She usually carves hard cheese, like cheddar.

Sarah uses knives to carve the cheese. She works by slowly cutting away the cheese to create her sculptures. She says that it takes a lot of patience, and that she has to work carefully. If she cuts off a piece of cheese, she can't put it back. Then it has to be eaten!

Kaufmann is hired by companies and individuals to create special cheese art. She has made cheese sculptures of famous structures, like the Golden Gate Bridge in San Francisco, California. She has also made sculptures of many famous people. One day she would like to carve a 2,000-pound elephant, all out of cheese.

Sarah says that every piece of cheese has a personality and it is discovered by her.

Example: Sarah's sculptures are made ..c..

a. a giant elephant.

47. Sarah chooses to carve cheese partly because of .....
