Dear Sophie,

How are you? I am great! School is closed and I am excited about my summer vacation. Last year I spent the months of July and August in Governors Harbour, Eleuthera. As always, I had a great time. The most unforgettable part of my vacation was sitting under the dilly tree with my cousins, listening to Aunt Ann tell us stories. All of the stories were good but my favorite story was "The Magical Chickcharnie".

Aunt Ann said that the Chickcharnie is a peaceful but mischievous creature that lives deep in the forest on the island of Andros. She believes that if you go looking for them, you will find this bird like creature hanging upside down by its tail from a tree.

According to Aunt Ann, the Chickcharnie is only three feet tall and has the head of a bird and the body of a man. the Chickcharnie three fingers, three toes, and big bulging eyes that are as red as cherries. It is believed that if you see the Chickcharnie you might be afraid to look at it, but if you become friends with it, you will have good luck. However, if you are mean to it and make fun of it, you will have bad luck for the rest of your life.

When I visit Eleuthera this year, I would really like for you to go with me so that you can listen to Aunt Ann tell stories.

Looking forward to hearing from you soon.

Your cousin,
Chantel
