10	**A** in	**B** at	**C** on

Read the article about learning a language. Match the headings (A–E) with the paragraphs (1–5).

Learning a language

A lot of websites say they have the secret to learning a new language. I haven't found a secret way but here is my advice:

(1) .....

Live in another country for a couple of months. Stay with a family so you have lots of opportunities to practise. You definitely shouldn't go with friends. I went to Mexico with an English friend and we didn't practise our Spanish, we just spoke English!

(2) .....

Speaking is difficult for many learners but you don't have to go to another country. You can chat to people online. Look for a website where you can find people the same age and with the same interests to talk to.

(3) .....

There's no easy way to learn a language and hard-working students always learn the most. I try to do two to three hours of study every day.

(4) .....

Think about the words that you use most in your own language. Then use a dictionary to find out what they are in the language you're studying. Try to learn from eight to ten new words every day. In two weeks you can learn 100 new words!

(5) .....

We learn from our mistakes so you mustn't worry about making them. In English there's an expression: 'practice makes perfect'!
