SAMPLE 1

I live in a peaceful country house with my family. There are six rooms in my house:a living room, a kitchen, a bathroom, and three bedrooms. There is also a small garden in front of my house and my dad plants many kinds of flowers around it. My favorite room is the living room, my family often spends time there together. We have snacks, watch TV, and talk about our day. There is a sofa and a TV in the living room. There are also some pictures and plants to make the room more beautiful. I love my house very much because it is convenient and comfortable.
