PERIODS OF HISTORY
PREHISTORY. NEOLITHIC

1. Match to make true sentences about Neolithic life.

During the Neolithic period,	people began to polish stone tools.
Some people became artisans	especially the ones used in agriculture.
Tools became more sophisticated,	so they began to barter.
People became sedentary – they settled	and produced goods such as tools, baskets and pottery.
They began to produce more food than they needed,	in one place and did not move from one place to another.

2. Label the picture of Neolithic life.

bartered | farmed animals | built homes | polished stone tools | farmed crops | made pottery
