Practice 2 : Subject Verb Agreement / Simple Present Tense

Read the text below. Circle the correct answer.

Bats (1) _____ nocturnal mammals mostly seen at night. They (2) _____ only seen then because they (3) _____ sensitive to light. These mammals can only fly and hunt at night and not during the day as their hairless wings would dry out in the sun. To locate their prey, they (4) _____ out pulses or vibrations through their mouths and noses, which (5) _____ back. This (6) _____ them to locate their prey. There are many types of bats. The fruit bats (7) _____ the seeds of fruits they eat. The vampire bats meanwhile (8) _____ on the blood of animals such as horses and cattle. Another interesting characteristic of bats is that they (9) _____ upside down. They (10) _____ so simply because their legs and feet are small and not strong enough to support their body weight. Doing this also (11) _____ them to take off from a high spot. You may wonder for how long they can hang upside down. Amazingly, even after they are dead, they (12) _____ to do so.

1	A. is	C. was		7	A. scatters	C. scattered
