f) She sustained multiple _____ when she fell off the roof.

2. Complete the following text using the appropriate word:

temporal – cerebrum – hemisphere – spinal cord – cerebellum – lobes

In class, we have talked about the brain. We identified three main ones:

- The _____, which is the largest part of the brain and is composed of right and left _____.
- The _____ controls balance, movement, and coordination (how your muscles work together).
- The brainstem connects the rest of the brain to the _____.

Each one of them has different functions and all of them are quite important.

You are doing a great job!
