wind	**should**	**green**	**However**	**who**

Much of our waste, especially waste (1) ..... factories, electric-powered stations, the chemical industry and heavy industry, is very dangerous. Fish die (2) ..... the lakes, rivers

LIVEWORKSHEETS

and seas; forest trees die, too. Much of this dangerous (3) ..... goes into the air and is carried by the (4)..... for great distances.

The Earth is our home. We (5) ..... take care of it, for ourselves, and for our children and grandchildren. This (6) ……..... we have to keep our environment (7) ..... and clean. The importance of this task is pointed out by ecologists - the scientists (8) ..... study the relations between living things and the environment. (9) ……....., each of us must do everything (10) ……..... to keep the land, air and water clean.

VI. Read the passage and choose the correct answer to each question.

Scientists believe that the smart home may be the home of the future. These homes may be of different shapes and sizes. They may also float on the water.

Scientists have designed the eco houseboat – a kind of house floating on the sea. But the houseboat is ***stable*** and doesn't rock heavily when there are big waves. It makes use of wave and solar energy to move it around and provide power. It also has solar panels on the top of the house to generate electricity. And it can recycle all kinds of household waste.

A robot controls everything in the house and does the housework. In the kitchen, smart refrigerators and dish washers can automatically work by themselves. A smart oven can cook your favourite dishes. All these things and other advances will make our life much better.

1. The eco houseboat will be _____.

A. in the air B. on the sea C. in the ocean D. on big waves

2. The word "stable" in the second paragraph is closest in meaning to _____.

A. comfortable B. not moving C. not sinking D. peaceful

3. What is special about the kitchen in the houseboat?

A. A robot B. Special dishes C. Smart equipment D. Dish washers

4. Which of the following is NOT true?

A. Scientists have built the eco houseboat.

B. The eco houseboat can make power.

C. The houseboat can recycle waste.

D. Our life will be better.

5. What is the main idea of the passage?

A. Life in the future B. Generating electricity in the future

C. Shapes and sizes of houses D. A special kind of house

VII. Join the pairs of sentences, using the suggestions given in brackets.

1. I must ring John. I won't forget, I hope.
