7. reliable	7.	g.	a shop selling newspapers
8. newsagent	8.	h.	in a different country

READING

Read the three *(3)* texts below about María, Emily, and Lucy.

María

"I think that you should consider my application as I have a good eye for detail. I am able to follow technical drawings and plans which I have learnt from studying design and manufacture at school. I am expected to achieve a high pass mark in maths and physics, which will be useful when dealing with quantities and angles. I will be doing work experience at 'Brighton Architects' during the month of July. In my free time I enjoy hiking and climbing."

Emily

"I love working as part of a team, which I have had to do as part of a computing project in school. We had to work together to design a presentation, which we then showed to the rest of the class. Equally, I also like to work on my own and do so regularly as a newspaper deliverer with the local Newsagent. I speak English, Spanish, and French and enjoy spending my summers abroad."

Lucy

"I am a dedicated young professional currently studying towards Baccalaureate, with complimentary experience in customer services obtained from working in a busy retail environment. I am predicted to receive excellent grades in Sociology, Geography and History, with a recent award for academic achievement in the Geography Olympics. As an active member in the local scout troop, I am currently involved in a volunteering campaign for homeless people in the community. A reliable team member with a personable nature and a positive communication style."
