READING COMPREHENSION
Read the article and answer the questions.

DOLPHIN HURT BY FISHING NET

Last Saturday Elena Arena was out sailing in the sea with her dad. It was a beautiful day and they were having fun. Suddenly they heard a strange sound coming from some rocks next to the sea. Elena's dad sailed a little closer so they could see better. It was a dolphin and it was injured. It couldn't move because of a fishing net around its body. Elena's dad phoned the local animal protection organisation and they went to help. They looked after the dolphin until it was better and it could return to the sea again. It was a very happy ending! Fishing nets and rubbish such as plastic can be dangerous for sea animals. It's important to keep beaches and the sea clean! Remember to put your rubbish in the bin.
