Escribe dentro del círculo el signo $>$ $<$ o $=$ según corresponda

A comparison exercise featuring two groups of orange cats. The left group contains 5 cats, and the right group contains 6 cats. Below the groups is a circle for the answer, followed by symbols: a question mark, a left-pointing arrow, an equals sign, a right-pointing arrow, and another question mark.

A comparison exercise featuring two groups of flowers. The left group contains 6 red flowers, and the right group contains 4 yellow flowers. Below the groups is a circle for the answer, followed by symbols: a question mark, a left-pointing arrow, an equals sign, a right-pointing arrow, and another question mark.

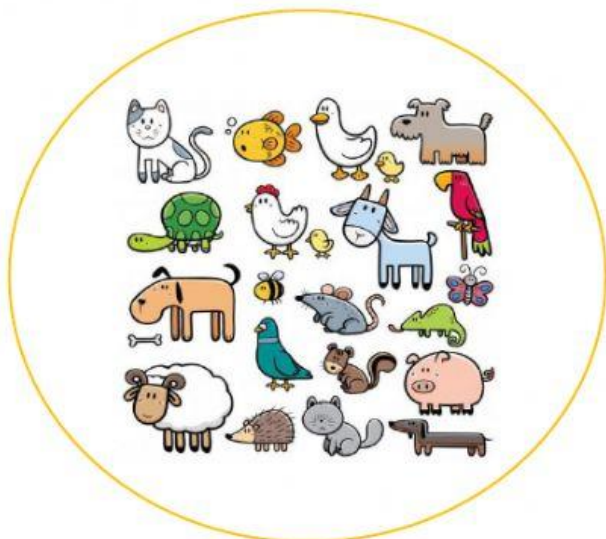

A comparison exercise featuring two groups of cars. The left group contains 8 orange cars, and the right group contains 8 purple cars. Below the groups is a circle for the answer, followed by symbols: a question mark, a left-pointing arrow, an equals sign, a right-pointing arrow, and another question mark.

5

Escribe el número que corresponde a la cantidad de elementos que ves en cada conjunto

6

Leo y relaciono el nombre con el número correspondiente
