LAST DANCE

My heart was born a radical
electric and dynamical
I've never listened to in the remedies
but no forevers no eternities

Holding on beyond the night right
for a shadow that feels right
holding on beyond the night
to you

If the dreams we made are made of fire
I would give a life just to live the dream again
if our hearts are hanging on a wire liar
let's forget the world below before and dance
until the end

Let's dance
Our last dance
Rocking romance
This ain't our last first dance
Let's dance!
Ooh oh oh

My heart was born in neon lights nights
floating in space like satellites
looking for signs of life tonight
as we collide in black and white

Holding on beyond the night right
for a shadow that feels right
holding on beyond the night
to you
If the dreams we made are made of fire
I would give a life just to live the dream stream again

Let's dance
Our last dance
Rocking romance

LIVEWORKSHEETS

This ain't our last dance
Let's dance!
Ooh oh oh
This ain't our last dance

Take a deeper breath before we touch
running out of time let's use it up
hold me before the morning mourning comes

Let's dance
Ooh oh oh
Rocking romance
This ain't our last dance
Let's dance!
