LIVING THINGS RESPOND TO STIMULI

Directions: Read each stimulus below. Choose from the responses at the bottom of the page.

STIMULUS	RESPONSE	STIMULUS	RESPONSE
You touch a mimosa plant		The lights are too bright in your bedroom	
Owls and bats sleep during the morning		You touch the body of a snail	
You hear the sound of the alarm clock		You smell the scent of the garbage	
A frog jumps on the leaves of a Venus flytrap plant		On a hot day, plants loses water	

WORD BOX

You cover your eyes or squint.	It closes its leaves and traps the frog inside	Plants curl up their leaves and wilt	You cover your ears because it's too loud.
It closes its leaves	You cover your nose because it smells bad	It retracts itself in its shell	They are awake at night
