Beautiful Day – Tiny Harvest

blocked misty grey harm breeze

longer precious behind sports shift

In a borrowed _____ car
On an open road
We see the sunshine _____ the clouds
I love you more
Than you would ever know
Let the mind stay forever young
If the summer _____ turns cold
And a hard rain starts to fall
May we still say
Here comes a beautiful day
In a _____ morning fog
No roads are _____
A kiss and we're off to see the world
Nothing can hurt me
Nothing can _____ me
When you're by my side
I feel _____ in the caresses from the sun
When the winter is long
And our songs no _____ sung
May we still say
Here comes a beautiful day
When the summer _____ to fall
And we're _____ and old
May we still say
Here comes a beautiful day..
