LEONARDO DA VINCI – A GREAT ARTIST AND SCIENTIST

The person I respect the most is Leonardo da Vinci. He was born on 15th April 1452 in the town of Vinci, Italy (near Florence). His full name was Leonardo di ser Piero da Vinci, which means Leonardo, son of Piero from Vinci. He was not only one of the greatest painters of all time, but he was also an architect, sculptor, engineer, inventor, mathematician and musician. Leonardo da Vinci was a very intelligent and imaginative man. He created many different designs. Some of them were for a bicycle, a helicopter, a parachute and even an aeroplane! He also liked to study everything in nature. You can find some of his notebooks in museums today. In them, you can see drawings of plants and animals as well as detailed sketches of the human body!
