Name:

Diphthongs /əʊ/,/aʊ/,/eə/

Read the text below and identify the /əʊ/,/aʊ/,/eə/ diphthongs in the words. Write down as many words that you can find.

A long time ago, a little girl was born in an old white house set in a garden. The little girl was given the name Alice, but she was always called Goldie by her parents. The child had blond hair with a round face and the most beautiful eyes. Goldie always feels bored whenever she's home because she has no siblings. One day, Goldie decided to go into the woods on her own, although her father did not allow her to do so. She was only allowed to go there with her mother because it is dangerous there. However, she went there with no one knowing. Goldie found a beautiful river, and she crossed over them because she saw beautiful roses on the other side. She picked them for her mother because it was her favourite. Then, she walked around the woods while breathing the fresh air. Later, Goldie found various types of fruit and ate some. She was feeling exhausted and took a break under a big apple tree. However, all this while a hungry bear was following her without her noticing. The bear was waiting for the perfect time to eat her. Goldie heard a growling noise, and suddenly a bear attacked her. She regretted going there alone, but it is too late now. Right about when the bear almost ate her, a hunter came out of nowhere and fired some bullets into the air. The loud sound stunned the bear, and it ran away quickly, leaving Goldie on the ground. She was very thankful that she is still alive and went back to her house to apologise to her parents for not listening to them. She promises she will never do that again.

/əʊ/	/aʊ/	/eə/
