it's a land surrounded by water

it's a place near the sea or the ocean

it's a place where you can sleep

it's an action. you do it when the floor is dirty

it's a place under your feet

it's the opposite of take off

it's an action. you do it when you make clothes

it means 'complete', 'not divided'

it's a feeling when you are shy or ashamed

it's a small house in jungles
