HOW TO BUILD AN INUIT IGLOO

Watch the video:

Order the steps:

- ◯ Build a roof for the entrance.
- ◯ Cut snow blocks
- ◯ Draw a circle in the snow
- ◯ Block the gaps of the walls with snow.
- ◯ Remove loose snow from the circle
- ◯ Place the second ring of blocks.
- ◯ Compact the snow in the walls
- ◯ Cut the top part of the blocks so they form an angle.
- ◯ Check the circle again
- ◯ Continue adding more rings of blocks.
- ◯ Build the entrance and get out of the igloo.
- ◯ Go outside and fill the remaining gaps on the walls and ceiling.
- ◯ Set the first row of blocks, cutting the blocks well so they fit together.
- ◯ Cut more snow blocks.
- ◯ Place a big snow block on top to cover the igloo.

LIVEWORKSHEETS

Hello! This is how you build an Inuit igloo:

First,

Second,

and

Then

Now it's time to

and

After that,

Then

Later

Then

After that,

And

Finally

Now

And

And you have an igloo!
