Three teenagers talk about cinema

Michael

I go to the cinema about once a month, usually on a Saturday. I like films about the police catching the bad people. I prefer the American police films because there are faster cars. I like the action in the police films, not the science part. My mum and dad don't like going to the cinema; they prefer watching films online. So they never come with me, but that's OK because I always go with my friend Jane.

Josh

Funny films are the best because I love to laugh a lot. I go on Thursdays because it's half price for students. I never go at the weekend. I don't like cartoons because I want to see real people as actors. There are some funny films my parents won't let me see because they are for adults, but my brother takes me to see them. He tells the cinema staff that I am over eighteen. Sometimes they find us in the middle of the film and ask us to leave.

Mark

I always like films about true stories. It is a different way to learn about history, geography and science. Watching such films sometimes helps me with my homework. I also like films which show different places around the world. After watching these kinds of films, I dream about going to these places and look at the places on Google maps. Some of these films are very well made but there are also a lot of bad films that I don't enjoy watching. I go to the cinema on Fridays. However, I would prefer to go at the weekend because there are special ticket offers, but I can't, as I have a weekend job.
