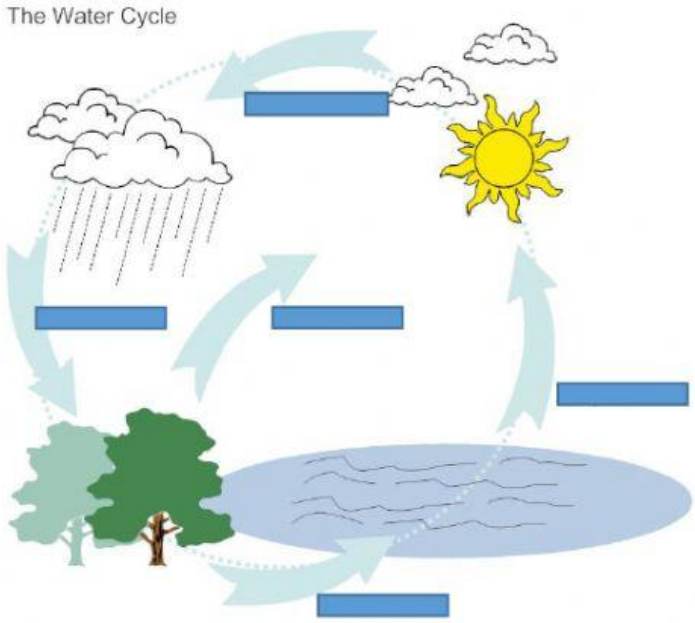
KENDRIYA VIDYALAYA NO.1 SAMBALPUR

CLASS: 5 SUB:-EVS ,LIVE-WORKSHEET-7,CHAPTER:7,TOPIC:-Experiment with water

Drag and drop
(Evaporation,Condensation,Precipitation,Transpiration,Percolation)



Drag and drop
(Condensation,evaporation,precipitation,transpiration)

i)As water (in the form of gas) rises higher in the atmosphere, it starts to cool and become a liquid again.This process is called_____

ii) The process of turning from liquid into vapour is called_____.

iii)When the water in the clouds gets too heavy, the water falls back to the earth. This is called_____

Iv) The process of evaporation from plants is called_____
