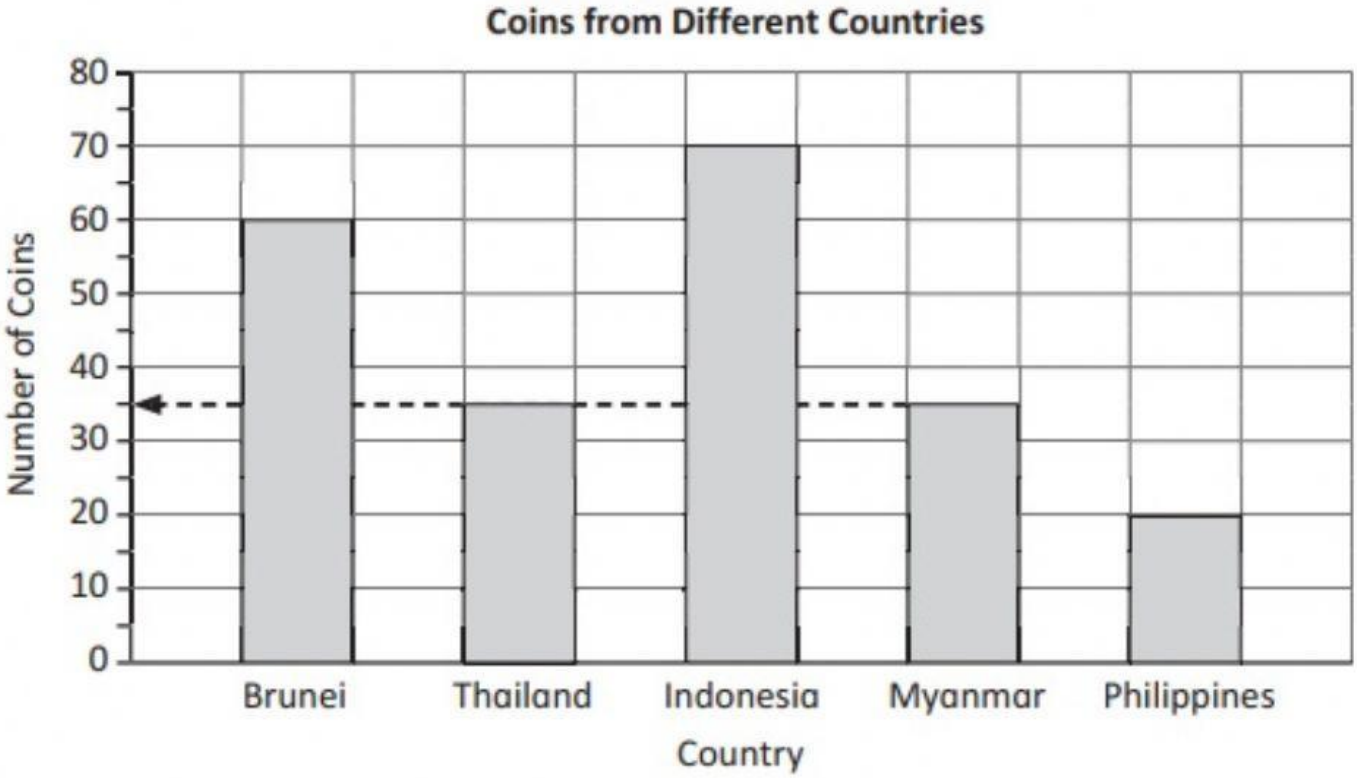
Gary has a coin collection. The bar graph shows the number of coins he has from different countries.



Using the data from the graph, complete the following table.

| **Country** | Brunei | Thailand | Indonesia | Myanmar | Philippines |
|---|---|---|---|---|---|
| Number of Coins | | 35 | | | |

(a) Gary has the same number of coins from _____ and

Myanmar.

(b) Gary has half as many coins from Thailand as he has from

_____.

(c) He has _____ more coins from Brunei than from Myanmar.

(d) Gary gave away all his coins from Indonesia. He now has the most

number of coins from _____.
