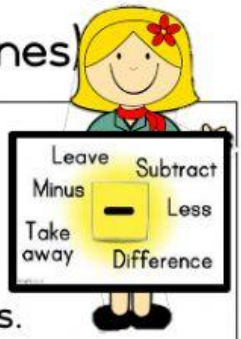
Lindopark Primary: Mathematics: **Grade 3 Term 2: Week 3: Thursday**

Decompose both numbers into (H + T + U/(Ones)

Look careful: I can not say I minus 2 (1-2) because if I have 1 I can not take away 2 .



So what will I do?

I will ask the Ten for one, (10) So the ten will change to ten less. And the Ones will have ten more. The H will stay now the same (400) then T (70 change to 60) and U: (1 change to 11.)

471 - 252 = ☐

Help, help me, T (ten) please give me one (ten)

Ok I will give you 10

		H		T		U
471	=	400	+	70	+	1
471	=	400	+	60	+ 10 + 1 =	11
252	=	200	+	50	+	2
219	=	200	+	10	+	9

Oh Thank you now I am not too small any more I have changed to 11 The T give me 1 (ten) now I am bigger

Use this method to calculate your answers.

373 - 254 = ☐

Change the T to 10 less (70 change to 60)

Change the U to + 10 (3 change to 13)

		H		T		U
373	=	300	+	70	+	3
373	=		+		+	
254	=		+		+	
	=		+		+	

LIVEWORKSHEETS

482 - 154 =

Change the T to 10 less

Change the U to 10 more

		H		T		U
482	=		+		+	
482	=		+		+	
154	=		+		+	
	=		+		+	

571 - 154 =

Change the T to 10 less

Change the U to 10 more

		H		T		U
571	=		+		+	
571	=		+		+	
154	=		+		+	
	=		+		+	

Choose / select the correct answer 4 X

3 x 4 =	12	5	2 x 4 =	4	8	8 x 4 =	32	12
7 x 4 =	21	28	5 x 4 =	20	15	11 x 4 =	22	44
