The table below consists of two columns. In **Column A** there is a list of terms. In **Column B** there is a list of definitions. In the bank space provided in **Column A** select the letter, which best defines each term in **Column A**.

Column A Terms	Column B Definitions
_____ Application program	A. Restrict callers from making toll calls or calls for which an extra charge is made
_____ Camera phone	B. Automatically calls the last number dialed when the user presses a key
_____ Speakerphone	C. Allows users to perform various tasks on a smart phone
_____ Memory	D. Sends calls automatically to another telephone number
_____ Auto redial	E. Allows the user to transmit pictures at the same time as voice
_____ Call waiting	F. Records or display the telephone number of the caller
_____ Call block	G. Allows users to press a code number to dial the number of the last incoming call
_____ Conferencing	H. Re-establishes the connection after a busy signal when both parties are free
_____ Call return	I. Allows the user to talk into a microphone rather than the handset
_____ Call forwarding	J. Signals an incoming call while a call is in progress
_____ Call ID	K. Allows the user to set up conversation with three or more people at the same time
_____ Call queuing	L. Allows the user to store numbers and then dial a number with one button
