

Přečti a poslechni si text:

In the UK there are four seasons: spring, summer, autumn and winter, but seasons are different all around the world.

Spring in the UK

In the UK, the spring months are March, April and May. The days get longer and plants grow again. Look at these pretty spring flowers!

Autumn in the USA

The autumn months in the USA are September, October and November. The nights get longer and the leaves turn orange, yellow and red.

Summer in Australia

When it's winter in the UK it's summer in Australia! Australian summers are very hot. Families go to the beach and lots of people swim in the sea.

Winter in Sweden

In winter, the days are short and the nights are long. In some parts of Sweden it's dark almost all day.

ZDE JE ODKAZ na překladáč, pokud neznáš nějaké slovíčko.

Napiš anglicky roční období:

jaro

léto

podzim

zima

Dopiš nebo vyber chybějící slova ve větách:

In spring days get and grow again.

Australian summers are very .

In autumn the turn orange and yellow.

In the days are short and the nights are .
