

Unit 5 Musical Language

Interval classification (I)

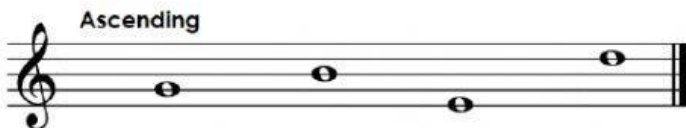

Name and surname:

Course and group:

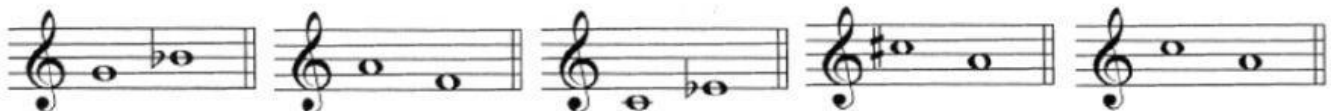

Exercise 1: Choose the correct option to form minor 2nd intervals with the following notes.

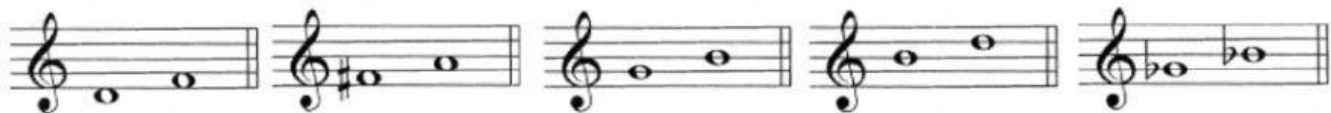

Exercise 2: Choose the correct option to form major 2nd intervals with the following notes.

Exercise 3: Say if the following 3rd intervals are major or minor.

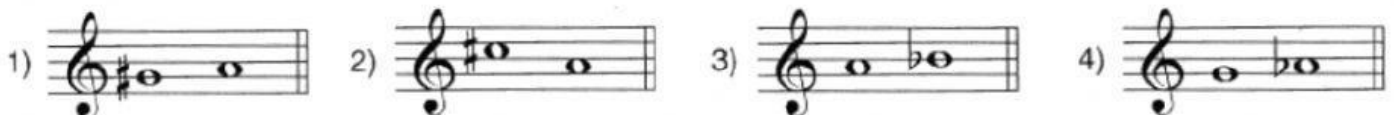

minor _____ _____ _____ _____

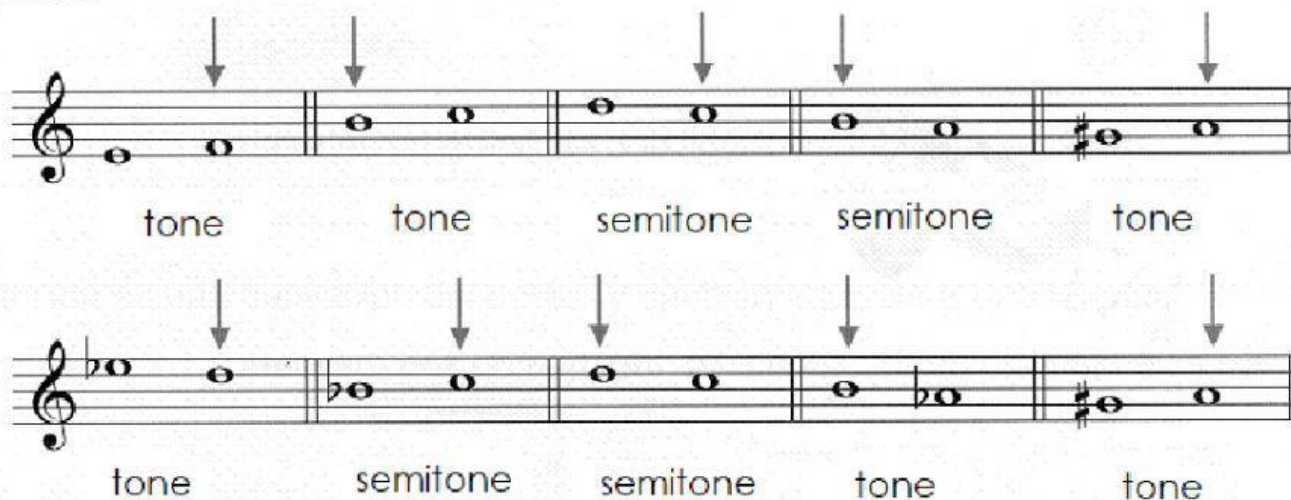

_____ _____ _____ _____ _____

Exercise 4: Write the accidental (# or b) to the natural notes when necessary to form intervals of major 2nd and 3rd. Respect the altered notes.

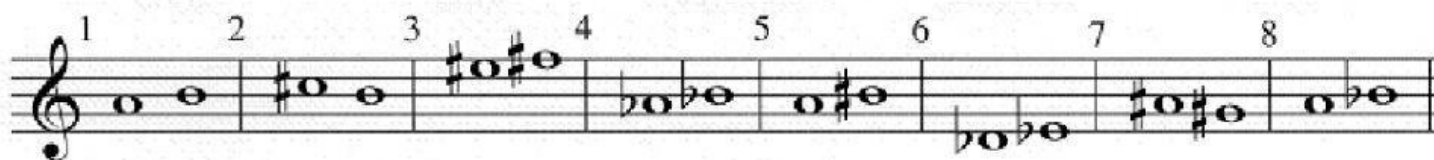

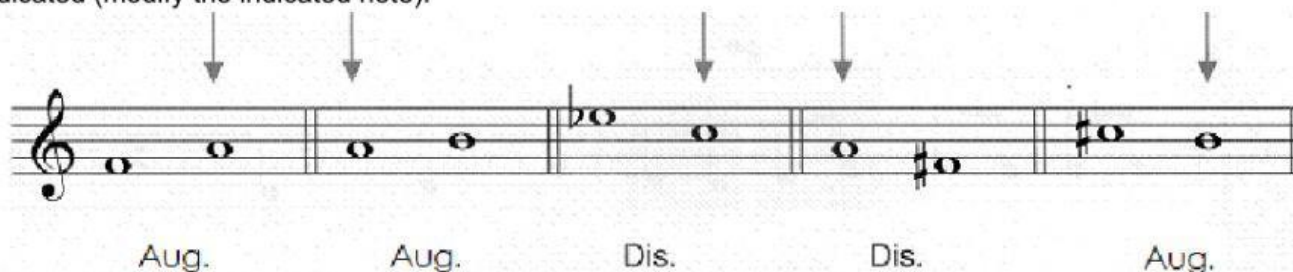

Exercise 5: Write the corresponding alteration (**#** or **b**) next to the indicated notes to get the interval distance that is asked.

Exercise 6: In this exercise of 2nd, indicate the three that are not major. Write a cross on the corresponding number.

Exercise 7: By means of alterations, you must convert the following intervals into augmented or diminished as indicated (modify the indicated note).

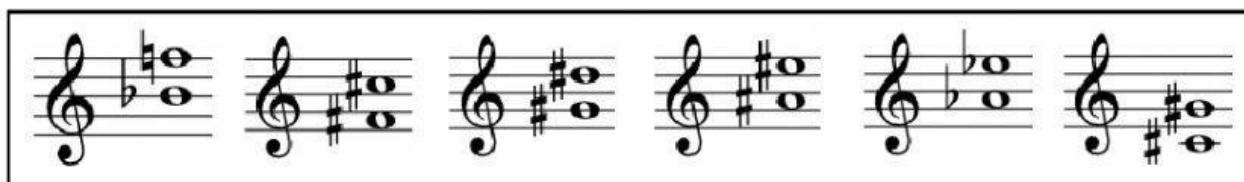

Exercise 8: What sound would you choose to form **perfect 4th** intervals from these notes?

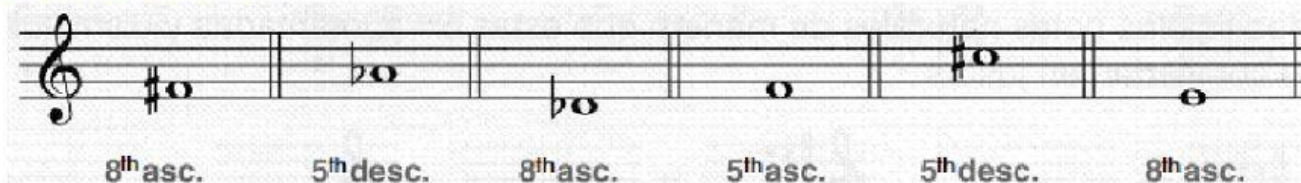

Exercise 9: From this series of 4th select which are **perfect** and which are **augmented**.

Exercise 10: Drag the correct option (only the natural note of each example appears modified) to its corresponding position so that these augmented and diminished fifths become **perfect**.

Exercise 11: What sound would you write to form perfect 5th and 8th from the following notes.

Exercise 12: What sound would you write to convert in augmented the following intervals from the given note?
