Name: _____

Instructions: Complete the table below. In the first column write any number that you choose. Look at the middle column to determine which place you are rounding the number you chose to. Finally, write the number rounded to the correct place in the third value.

The first one is done for you.

My Number	What place are you rounding to?	My Number ROUNDS to…
848 189	Ten thousands	850 000
	Thousands	
	Ten Thousands	
	Hundred Thousands
