My first trip to India

I always look forward to the school holidays to de-stress and unwind. My parents would usually **(0)** **planned** a family trip. It is always so much fun to go on a family trip during these holidays. We go on **(1)** **this** trips almost always as a family of five, which consists of my father, mother, my twin siblings and I, **(2)** **for** my cousins also travel with us on occasion. I always have a fantastic time **(3)** **with** these trips. This year, **(4)** **their** parents decided to go to Ooty and Mysore in India. It was my first time there and it was a pleasure to **(5)** **visits** both the locations. However, I enjoyed Ooty a little bit more. It is home to beautiful gardens and marvellous structures. While there, we enjoyed the local food, went sightseeing and spent **(6)** **few** quality time with each other. It was **(7)** **a** amazing experience, and possibly the best family trip I ever had. I also think it was the **(8)** **long** one. This holiday was for a week, which made it more enjoyable.
