III. Choose the word (A, B, C or D) that best fits each space in the following passage. (1.5 pts)

Hi Alex,

Hope you're doing well! I just wanted to tell you about something that's been on my mind lately – deforestation. We talked about climate change before, but I've recently read more about how fast forests are (17) _____, and it's honestly shocking.

In some areas, entire forests are being cleared just to make (18) _____ for farming or buildings. I get that people need land and resources, but it feels like we're forgetting how important trees are – not just for animals, but for us too. They clean the air, protect the soil, and even help (19) _____ the climate.

What's worse is that many species lose their homes, and some might go (20) _____. I saw a documentary last week showing how orangutans are struggling because of deforestation in Southeast Asia. It was heartbreaking.

I've been thinking – maybe we could do something, even small, (21) _____ supporting reforestation projects or just spreading (22) _____. I know it's not easy to fix, but I believe every little bit helps.

Let me know what you think. Would love to hear your thoughts!

Take care,

IV. Read the following leaflet about electricity. Decide whether the statements from 23 to 26 are True or False and choose the correct answer (A, B, C or D) to complete the statements in the questions 27 and 28. (1.5 pts)

Electricity is one of the most essential resources in modern life. From lighting our homes to powering industries, it plays a vital role in shaping how we live, work, and connect. Yet, while electricity brings convenience and progress, it also comes with challenges we must address.

Electricity enables communication, transportation, healthcare, and education. Without it, daily life would come to a standstill. However, much of the world's electricity still comes from non-renewable sources like coal and gas, which contribute to pollution and climate change.

As global demand rises, responsible consumption becomes more important than ever. Simple actions like turning off unused appliances, using LED bulbs, and choosing energy-efficient devices can make a big difference. Not only do these habits reduce environmental impact, but they also lower your electricity bills.

LIVEWORKSHEETS

Renewable energy sources – such as solar, wind, and hydro – offer cleaner alternatives. Governments and communities are investing in green technologies, but individuals also play a key role. Supporting clean energy initiatives and staying informed helps accelerate the transition to a more sustainable world.
