The Best Sleeping Bag

I needed to buy a new sleeping bag for a winter camping trip. So, I went to a camping store and compared three different brands[1] of sleeping bags: Ultra Comfort, Snowy Down, and Northern Trek. I wanted to look at each sleeping bag very carefully. For winter camping, the Snowy Down had highest rating. But in some ways, the other two sleeping bags were . Of the three sleeping bags, the Snowy Down was the warmest, but it was also the expensive. The Northern Trek cost than the Snowy Down, but it was just expensive as the Ultra Comfort. The Ultra Comfort was warmer than the Northern Trek. Finally, the Ultra Comfort was lighter the other sleeping bags, so it was easier to carry.

I decided not to get the Northern Trek for camping outside. It as warm as the other sleeping bags. But we were having a mild winter, so I didn't need the warmest kind of sleeping bag. So I looked more closely at the lightest sleeping bag, the Ultra Comfort. That's the I chose.
