CHICKENS

such as – in contrast to – due to – so that – despite besides – not only – such that – whereas

1. Chickens are omnivores. ..... eating seeds, grass, and grain, they can eat insects, lizards etc.
2. ..... can chickens know each member of their family but also they can remember places, dogs and cats.
3. ..... general idea that chickens have poor vision, their vision is better than humans.
4. Chickens can sleep one eye open ..... they can watch for the predators.
5. Chickens are capable of at least 30 different vocalizations and each one means something special ..... alerting others, calling young chicks, warning other flock members.
6. Chickens are ..... smart creatures ..... they can demonstrate complex problem-solving skills.
7. Chicks as young 2 days old show object permanence ..... human babies don't develop this skill until they are 6 months old.
8. Traditional breeds are at risk of becoming extinct ..... there being about 25 billion chickens in the world ..... industrialized chicken farming which gives little care to preserving the original breed characteristics.
