What could have been the result(s) of each one of the scariest moments described in the article? Match the moment to the possible result:	
moment 1	astronauts and vehicle might have been injured
moment 2	the astronauts could have been infected by an unknown disease
moment 3	the lander might have run out of fuel and crashed
moment 4	the public might have been informed about the mission's failure
moment 5	fuel might have accumulated and caused an explosion
