HOW DO YOU TRAVEL AROUND THE CITY?

I go to work by rollerblades. It's a [1]f*ast* (asft) way to travel and it's very [2]h_____ (ehtlhya) because I get lots of exercise. Sometimes it feels quite [3]d_____ (dnesaurog) with so many cars around me, and it's a little [4]i_____ (icnietnveonn) because I need to change into shoes when I go into my office. But rollerblades are a lot of fun.

Tony Jones, film producer

rollerblades

skateboard

I go everywhere by skateboard. True, it takes a long time to learn because it's [5]d_____ (idticulff) to ride one, but it's very [6]c_____ (ocneintenv) – when I go into a shop, I just pick up the skateboard and carry it like a book!

Joel Williams, musician

I use my scooter all around the city. It's [7]s_____, (eafs) it's [8]e_____ (yeas) to ride and it's more [9]c_____ (forcbltaome) than rollerblades or a skateboard because balancing isn't a problem. Sometimes you see scooters with motors on them, but those are really [10]p_____ (tuinpogll). 'Go green,' I say!
