Missing Numbers 2-Digit Addition (1)

Calculate the missing digits in these calculations.

1. $\square 0 + \square = 53$
2. $7\square + 7 = 78$
3. $\square 3 + \square = 58$
4. $\square 0 + \square = 39$
5. $5\square + 4 = 61$
6. $\square 2 + \square = 85$
7. $4\square + 2 = 51$
8. $9\square + 8 = 107$
9. $\square 3 + \square = 56$
10. $\square 6 + \square = 22$
11. $3\square + 1 = 35$
12. $4\square + 4 = 45$
13. $7\square + 5 = 78$
14. $4\square + 4 = 49$
15. $3\square + 2 = 36$
16. $\square 2 + \square = 40$
17. $\square 7 + \square = 28$
18. $3\square + 2 = 41$
19. $1\square + 8 = 23$
20. $\square 9 + \square = 54$
21. $7\square + 7 = 81$
22. $\square 0 + \square = 67$
23. $1\square + 6 = 19$
24. $2\square + 7 = 31$
25. $\square 7 + \square = 55$
26. $\square 3 + \square = 100$
27. $\square 8 + \square = 63$
28. $2\square + 5 = 29$
29. $8\square + 9 = 95$
30. $\square 5 + \square = 30$
