Quick snacks

Three teenagers tell us their favourite snacks that they can make in less than ten minutes.

1 My favourite quick snack is pizza bread. I toast a piece of bread for two minutes.
2 Then, I put tomato sauce on one side, add cheese, some herbs and spices and more
3 cheese! Then I toast the side with the cheese for two minutes. Five minutes to make
4 and two minutes to eat! Delicious! – *Gerard*

5 My mum makes a snack called pikelets. They're very simple and now I can make
6 them. The most important ingredients are eggs, butter and sugar. You mix
7 everything together and cook a bit of the mixture and turn it over. Each pikelet takes
8 about two minutes to cook. I put chocolate sauce on them. I can eat five or six! –
9 *Harriet*

10 I always have a smoothie for breakfast. I get four pieces of frozen banana with some
11 other fruit and some milk and put it in an electric mixer. Then mix for one minute
12 and drink! It's very good for you. I sometimes use vegetables as an alternative to
13 fruit. A small smoothie in a juice bar is five euros. With my ingredients, I can make
14 three small smoothies for three euros! But it's nice when someone makes it for you,
15 and the juice bar has lots of combinations to choose from. – *Polly*
