Natural Sciences. Unit 1. **Nutrition and Reproduction.**

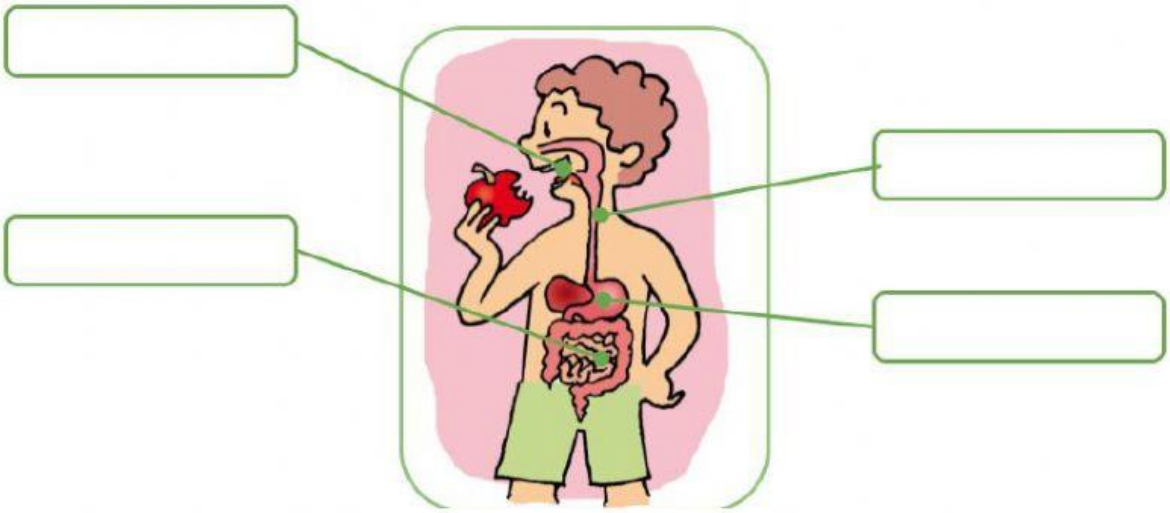
1 Match the system with its function.

digestive system ○	○ get oxygen from the air.
respiratory system ○	○ have babies.
circulatory system ○	○ get nutrients from food.
excretory system ○	○ eliminate waste products.
reproductive system ○	○ move blood from the heart to all parts of our bodies.

2 Label the parts of each system.

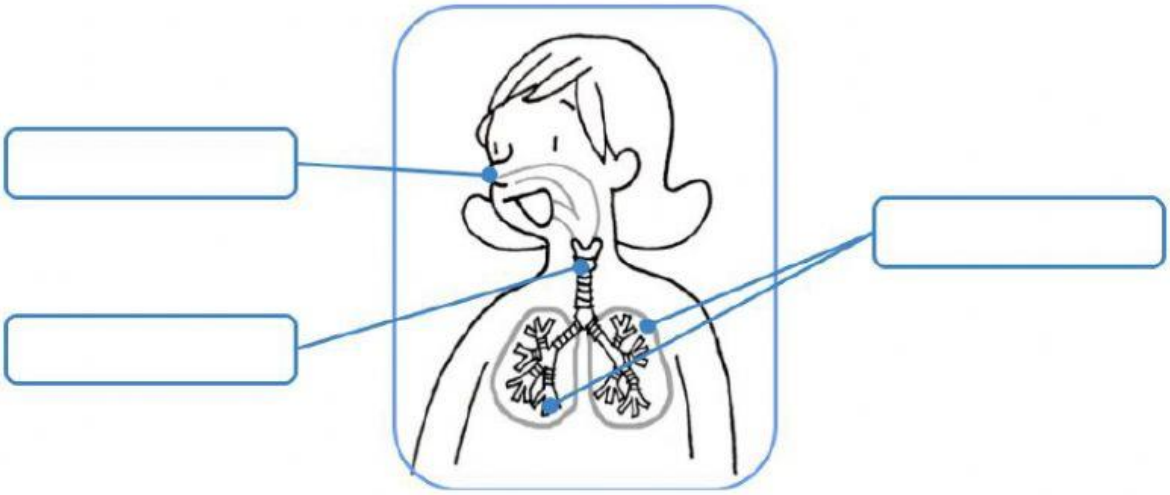
DIGESTIVE SYSTEM

Our digestive system allows us to get nutrients from food.



RESPIRATORY SYSTEM

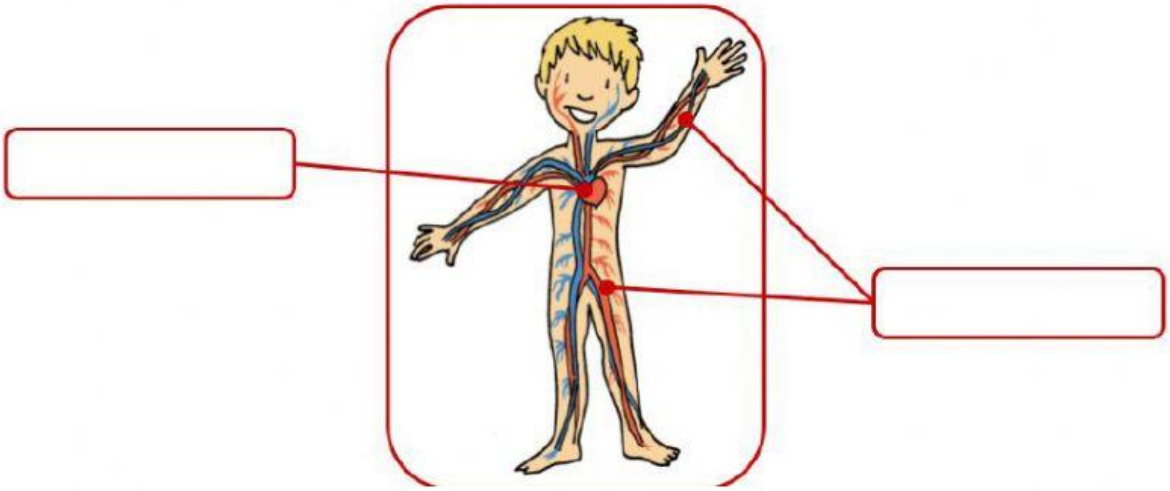
Our respiratory system allows us to get oxygen from the air.



LIVEWORKSHEETS

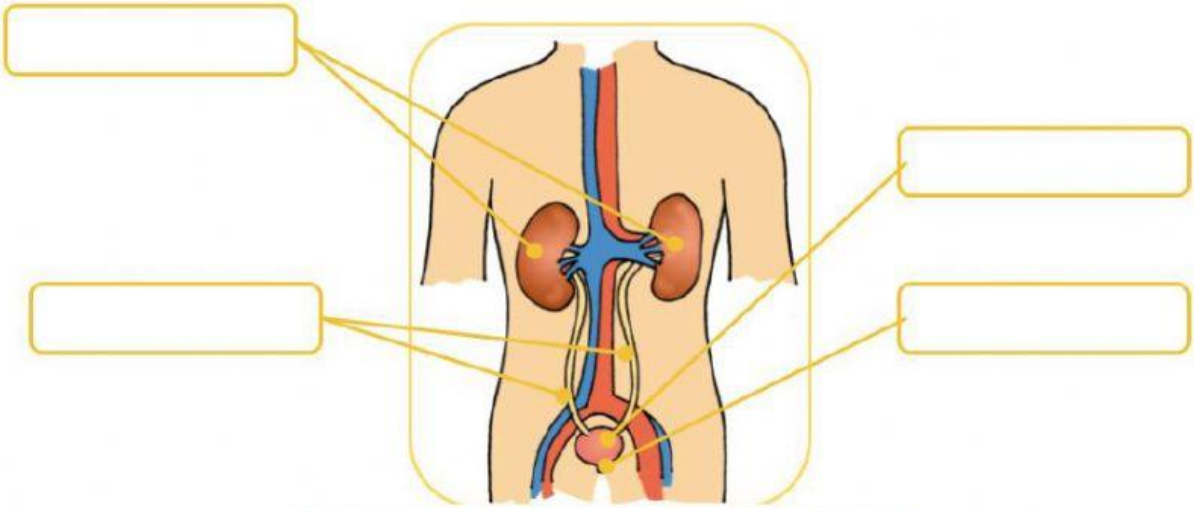
CIRCULATORY SYSTEM

Our circulatory system sends blood from the heart to all parts of our bodies.



EXCRETORY SYSTEM

Our excretory system helps us get rid of waste products.



REPRODUCTIVE SYSTEM

Our reproductive system allows us to have babies.
