5 **Thinking critically** Read the statements in the chart. Are they True (T) or False (F) in your opinion? Complete the first column. Give reasons. You will complete the third column after reading the article *Talking with Animals*.

Your Opinion	Statements	After You Read
T F	1. Some people are able to communicate with animals better than others.	T F
T F	2. Food is a common topic in animal communication.	T F
T F	3. Animals can't use body language to communicate.	T F
T F	4. Angry chimpanzees are sometimes violent and dangerous.	T F
T F	5. It's hard to study whale communication because they produce a large number of sounds.	T F
T F	6. A dolphin uses different nouns, adjectives, and verbs to communicate with another dolphin.	T F
T F	7. Chimps can understand whole sentences, but they can't form sentences of their own.	T F
