Don't miss the Tower of London. It's a great historic castle. You can see Britain's most precious treasure – the Crown Jewels .

Go to the British Museum. It's Britain's largest museum and it's also one of the greatest in the world. You can see a lot of world-famous objects such as the Rosetta Stone or the large collection of Egyptian mummies . And admission is FREE!

London is really one of the best cities for museums, because a lot of museums are free. Forget about Madame Tussauds Wax Museum! It's always very busy and it's overpriced. It's one of the most expensive museums in London.

I'm a huge fan of Madame Tussauds and to me it is a MUST-SEE in London. The wax statues are amazing. They are so real and the best thing is that you can stand next to stars and take photos . You can meet a lot of celebs like Brad Pitt, Rafael Nadal, Lady Gaga or the Queen . And don't miss the Star Wars experience. It's like you're in the film with Yoda or Princess Leia! Madame Tussauds is one of the funniest museums in London.
