We have cut down so many trees that there are now vast areas of wasteland all over the world. As a result, farmers in parts of Africa can not grow enough to eat. In certain countries in Asia there is too little rice. Wild animals are quickly disappearing. For instance, tigers are rare in India now because we have killed too many. However, it isn't enough simply to talk about the problem. We must act now before it is too late to do anything about it. Join us now. Save the Earth. This is too important to ignore.
