Read the following passage.Write TRUE if the statement is true, FALSE if the statement is false, or NI if there is no information on this. (5 questions)

Space exploration has been going on since the 1950s. Human interest in outer space has been so widespread around the world. Humans are fascinated by new knowledge, desiring to push the limits and exploring the unknown. Space exploration helps us know our position in the universe and the history of the solar system. In addition to the answers to our questions about the universe, space exploration leads to new inventions and involves many industries in the process. With human spirits of curiosity and exploration in mind, NASA is aiming at the completion of the International Space Station. Such a station serves as a research center to help astronomers stay safe during space fl ights. It also assists in private company's involvement in space tourism.
