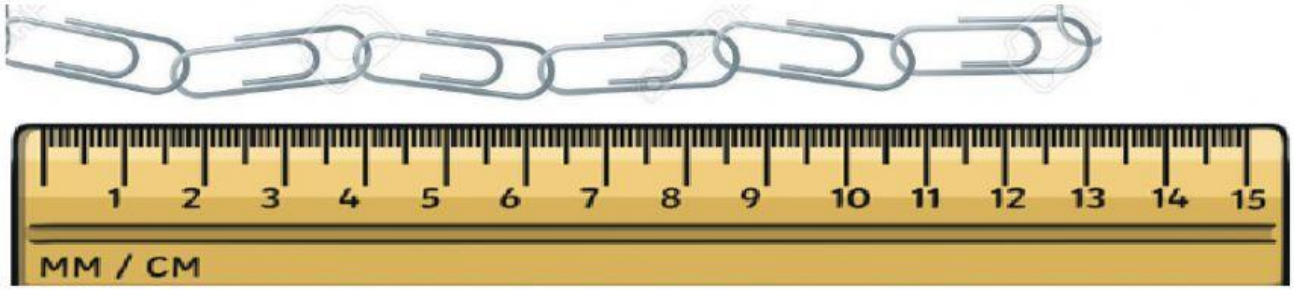
Happy National Paperclip Day!
Let's do some math problems to celebrate!

1. How many paperclips do you see below?

9	**6**	**7**

2. How long is this paperclip chain?



13 cm	**10 cm**	**15 cm**

3. I printed **100** copies of a notice. I have to group the notices into packets and paperclip them. Each packet must have **20** pages in it. How many paperclips will I need?

You can use a calculator:

100 ÷ 20 =

You can draw it out (5 stacks of 20 pages each):

100 paperclips	**5 paperclips**	**20 paperclips**
