Creative writing

WRITING PARAGRAPHS.

A Paragraph is a group of at least five sentences, it is at about half a page long.

A paragraph tells about one specific topic. It is made up of a main idea and supporting details.

And easy way to write a paragraph is using a TOPIC SENTENCE to create the **main idea.**

For example:

There are two national birds in Trinidad and Tobago.

After the topic sentence, we write other sentences with details to support the main idea.

For example:

- DETAIL 1- *The names of the National birds are the Scarlet Ibis and the Cocrico.*
- DETAIL 2- *The Scarlet Ibis is bright red.*
- DETAIL 3-*The Cocrico is small and brown.*
- DETAIL 4- *The Scarlet Ibis lives in the Caroni Swamp while the Cocrico lives in Tobago.*

When we put the topic sentence and details together, we get a paragraph.

There are two national birds in Trinidad and Tobago. The names of the National birds are the Scarlet Ibis and the Cocrico. The Scarlet Ibis is bright red. The Cocrico is small and brown. The Scarlet Ibis lives in the Caroni Swamp while the Cocrico lives in Tobago.
