THE PARTS OF THE CIRCLE.

DIAMETER	It is any part of the circle.
CHORD	It is a big arc plus the diameter of the circle.
ARC	It's the length of the boundary of the circle.
SEMI-CIRCLE	It is a closed figure, in which each of its points have the same lenght to the centre of the figure.
CIRCUMFERENCE	It's just the middle centre point.
CIRCLE	It's the distance between each point of the circle and the centre.
CENTRE	It's a line segment that joins two points on a circle. It can have many different lenghts.
RADIUS	It is the longest chord of a circle that passes through the centre of the circle.
