C1 Advanced
- Writing part 1 -

Write your answer in 220–260 words in an appropriate style.

In your class you have been discussing about technology and private life. You have made the notes below.

Is technology limiting our personal freedom?

- CCTV cameras
- data mining
- computer hacking

Some opinions expressed in the discussion:

«CCTV cameras are everywhere. That means we all safer than we used to be»

«Companies which collect and sell our personal data from the Internet need stricter control»

«Hackers should be considered terrorists. You can't do anything for fear of being watched»

Write an essay discussing two of the points in your notes. You should explain which one is more important, giving reasons in support of your answer.
If you wish, you may use the opinions expressed in the discussion, but you should use your own words as far as possible.
