The introduction

Technology seems to be everywhere these days, whether you are chatting on line, sending work emails, or completing your homework.

In this essay, I am going to look at some of the advantages and disadvantages of using technology.

There seems to be new innovations all the time helping us to communicate with each other and keep up-to-date with what is happening in the world.

Body paragraph 1

For example, I use many social networking sites to connect with my friends this keeps me updated on what is happening in their lives.

Firstly, it is an extremely useful tool for communicating with others.

In this section I am going to write about some of the main advantages of technology.

Secondly, I often use technology to access material for my homework online this helps me a lot because there is so much information available online.

I can use my devices to send messages and pictures or to play games as they are very user-friendly.

Body paragraph 2

Lastly, people can use the internet so much that they are living a virtual life on line and not connecting with people in real life.

Secondly, there is the problem of cyber-crime, including cyber-bullying when hurtful and mean things are written online.

On the other hand, there are many pitfalls of depending on technology.

Firstly, there are all types of information and games are available online, some that is unsuitable for people of different ages especially young children.

Conclusion

I believe there are far more advantages than disadvantages, but that we need to be aware of the problems associated with overuse and inappropriate use of the internet.

To conclude, I have looked at the main advantages and disadvantages of using technological gadgets.
