THE STORY OF MY LIFE

Hey! I am Francisco, and today I'm going to tell you how my life has been from my **childhood** until nowadays. How to start? Well, when I was 10, I used to play the piano. My beautiful mom always said to me: "You should **do well** if you want to play the piano in front of a lot of people." But the truth is that I hated to play the piano. I always wanted to play basketball, it is my favorite sport, and I almost do it. But my teacher of music told me that it is dangerous for my hands. I was so angry. When I was 15, my life was regular with the same routine, but I met a girl with a good **personality**. Months later, she became my girlfriend, but in secret, because of my mom, she did not want to have a person, especially a girlfriend, who distract me from my **goals**. Now, I am 23, and finally, I am happy with my life. I study a **career** that I like. I continue with my first girlfriend. It was **hard** telling my mother that I did not like to do the things that she wanted me to do, but she understood, and she also said to me that I should have told her before how I felt. My mom is a great person, but she just wanted the best for me.
