**GRADE SIX**
**MATHEMATICS**

**Name: _____ Date: _____**

**Metric Units**

**Convert the following measurements into new units.**

1. 23 000 millimeters = _____ meters
2. 54.295 grams = _____milligrams
3. 1.66 liters = _____ milliliters
4. 4 hours = _____seconds

**Which is the largest? Select the largest amount in each box.**

| | |
|---|---|
| *5.* | *6.* |
| *750 milligrams* | *2 years* |
| *1 500 grams* | *720 days* |
| *2 kilograms* | *1 440 minutes* |

**Use the > , < or = sign to compare the following amount.**

7. 9.99 grams 9 990 milligrams
8. 72 hours 2 days
9. 12 435 meters 12.5 kilometers
10. 3.6 kiloliters 3 600 liters
